Competition • Competition • Competition Space Station Vil Are You Up to the Chall

Great CEET TEETINE Sel-Fi Competition!

LEGO TECHNIC Club wants to develop a Millennium Space Station to watch over the Earth and protect it from asteroid attack

Our LEGO space scientists have been working hard to design the plans but have run out of ideas. It's a real crisis - Millennium has no means of rescue or monitoring craft and cannot defend itself.

Can YOU help? Are you up to the BIGGEST building challenge EVER?

Now's YOUR chance to get into the stratosphere of space design and grab a piece of sci-fi action! You could win a top LEGO **TECHNIC** prize!

We need your help to protect the earth!

Space Station Millennium will be one of

the most challenging and exciting design projects ever. undertakun - a futuristic space garrison with a mussion to safeguard the world as we know it! It wal be inhabited by people chosen specially for their courage in the face of extreme danger

These drawings will give you an idea of bow Millennium looks to far. All you have to do is use your imagination and artistic skills to design a unique space craft - then build it!

You can choose to build one of the following vehicles:

[a] A Space Defence Vehicle to protect Millennium from alien attacks and flying meteors

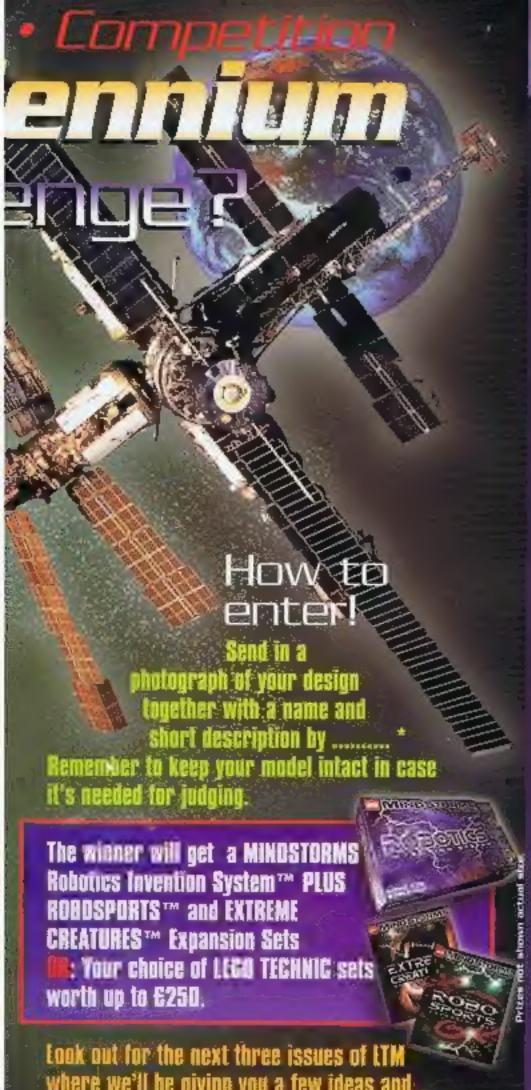

(b) A Space Resear Vehicle to pluck astronauts from danger and transport them safely back to Millennium.

I can't

(c) A Reconnaissance Vehicle to monitor alien activity in outer space and report back to the

see any You can use any number of LEGO asteroids? bricks and LEGO TECHNIC elements. Just let your imagination run wild - the wilder and wackier the better!

where we'll be giving you a few ideas and showing you some of the entries we've received so far.

Send you entries marked 'Space Station lennium Competition' to LEGO TECHNIC Club, LEGO UK, Wrexham, LL13 7TQ together with details of your name, address, age and membership number.

Space Station Millennium must be ready for action by the Year 2000 - so waste no time!

LEGO MINDSTORMS Conner

Hi quys! welcome to MINDSTORMS Corner - our new hot slot to let you know where it's at and keep you. in touch with LEGO MINDSTORMS news!

Whether you've aiready got the amazing Robotics Invention System or you're thinking of grabbing a slice of the action - MINDSTORMS Corner is for YOU!

In this issue, we've got some great news about our first two Expansion: Sets! Add them to your Robotics Invention System (RIS) and let the his just go on building

Heat up the action by giving your robots the power to grab balls, shoot hoops, slap pucks, and dodge opponents!

Lets you build wild creatures that bite, sting, pounce and pinch from 140 new parts!

Cool Competition!

You can win ROBOSPORTS and EXTREME CREATURES expansion sets in our prize competition. Just tell us in no more than 25 words why LEGO MINOSTORMS is the coolest invention around!

Send your entry on a POSTCARD ONLY to MINDSTORMS Competition - LTC

LEGO UK Ltd **Ruthin Road** Wrexham LLI3 7TO

Closing date: 31st March, 1999

Don't forget to include your name, age, address and membership number - plus your e-mail address if you have one!
